Mantix4 Helps You Reduce Your Exposure

An attacker's greatest weapon is a target's blindness. Mantix4 helps you expose the cybersecurity risks in your organization before an attacker does. Whether your company has a false sense of cybersecurity from trusting in a partial solution or believes that only big businesses are likely targets, it is critical that you look for your vulnerabilities.

Mantix4 and our MSSP partners give you continuous visibility into cyber threats across your workstations, servers, and networks and help you reduce your risk of exposure.

❶ Analyze

Mantix4 offers the industry-leading platform that enables cyber threat hunting. Effective cyber threat hunting and network environment analysis.
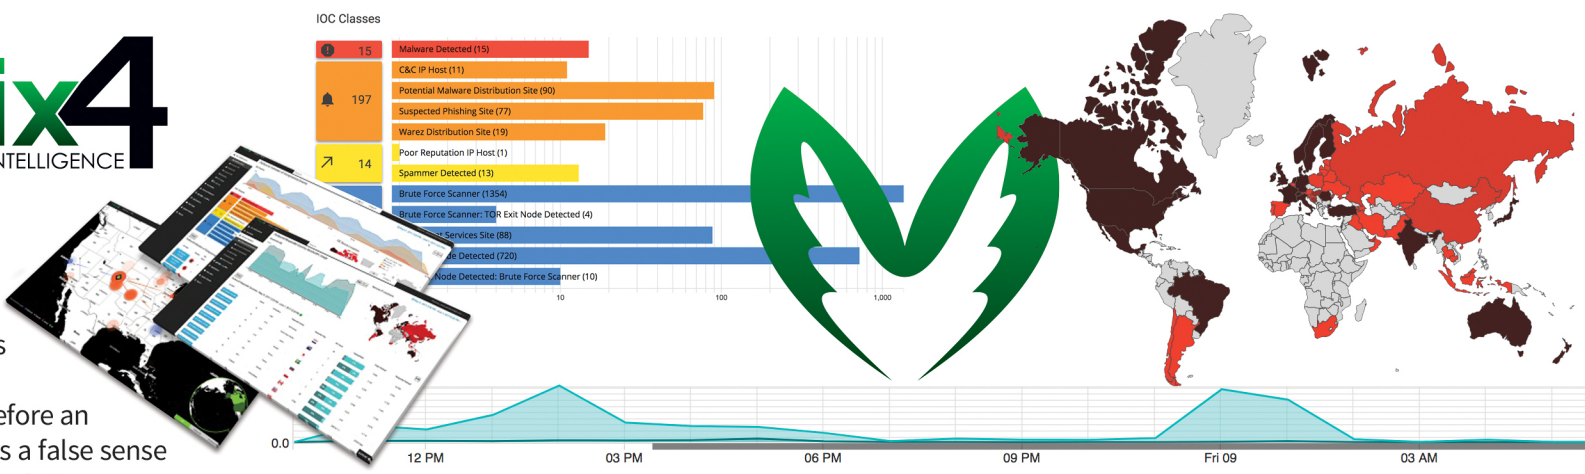

❷ Hunt

The M4 Cyber Threating Hunting Platform centers on a combination of human-driven process and machine-powered analytics.

❸ Disrupt

M4 Cyber Threat Hunting Platform enables enterprises to proactively and forensically identify, visualize and disrupt would-be attackers.

❹ Neutralize

M4 Cyber Threat Hunting Platform goes beyond active defense and employs offensive maneuvers and advanced counter measures.

Managed Protection, Detection and Response.

Mantix4's Managed Protection, Detection and Response (MPMDR) offers the key functions for generating proactive actionable Cyber Intelligence.

Mantix4 and our Partners provide MPMDR services for those clients who want a 24x7x365 helpdesk and Security Operations Center (SOC) support.

Mantix4 and our partners' SOC operations work in conjunction with your internal IT staff or can be the primary monitoring service (MSSP) for your business. Our partners additionally provide full Managed Services (MSP) should you prefer to outsource the predominance of your IT work. We provide the entire solution set or just the pieces you need to fill your gaps.

Mantix4 Platform deploys rapidly and delivers integrated full-context visibility of Network, Behavioral, EDR/XDR, Q-Net, and other platforms generating proactive actionable Cyber Intelligence for SOC operators. Additionally, it provides continuous enhanced Cyber Hygiene Assessment for endpoint and cloud services enabling incremental hardening of your IT environment against Cyber threats. Mantix4 fills a key role in Cybersecurity, greatly reducing your Risk.

Mantix4 integrates with Partners to provide next generation of National Intelligence-Grade cybersecurity protection through monitored HardSec Encryption for those who need to protect Critical Infrastructure, or meet the strictest Regulatory Compliance standards. And for those who, based on Risk, need lower levels of Protection, our team will work with you to get the right customized solution.

Communication and coaching. The Mantix4 team knows the ins and outs of the Cybersecurity environment. We will translate tech-speak to provide real-world valuable insights that will protect your data and neutralize cyber threats.

Let's get the conversation started.
